

April 28, 2010

Dear NASC Supporter,

My name is Greg Nevels and I am the new Head of Public Relations and Education.

I would like to announce the 7th annual NASC benefit Auction that will be running from Saturday, April 24<sup>th</sup> 2010 until Saturday May 8<sup>th</sup>, 2010. The auction can be found at [TerraForums.com](http://TerraForums.com) and it is sponsored by [FlyTrapShop.com](http://FlyTrapShop.com).

The auction is NASC's main fundraising event for the year and the lesser of \$1500 or 50% of the 2010 auction proceeds are being donated to The Nature Conservancy, Georgia for preserving the Federally endangered green pitcher plant (*Sarracenia oreophila*) listed on the US Endangered Species Act and CITES Appendix I.

I have to apologize for the tardiness of this article. I am new at this type of thing and I have to salute my predecessor, Jonathon Trefkorn, for the work that he has done in the past. Producing a newsletter for an organization such as NASC is no small task. So pop on over to [TerraForums](http://TerraForums) and check it out.

Have fun and happy growing,

***Greg Nevels***

Head of Public Relations and Education
